Combining Data

YOYO Outcomes with OVR Services

2023-2024

The Big Question

- How does a student's level of interaction with VR impact post-school outcomes?
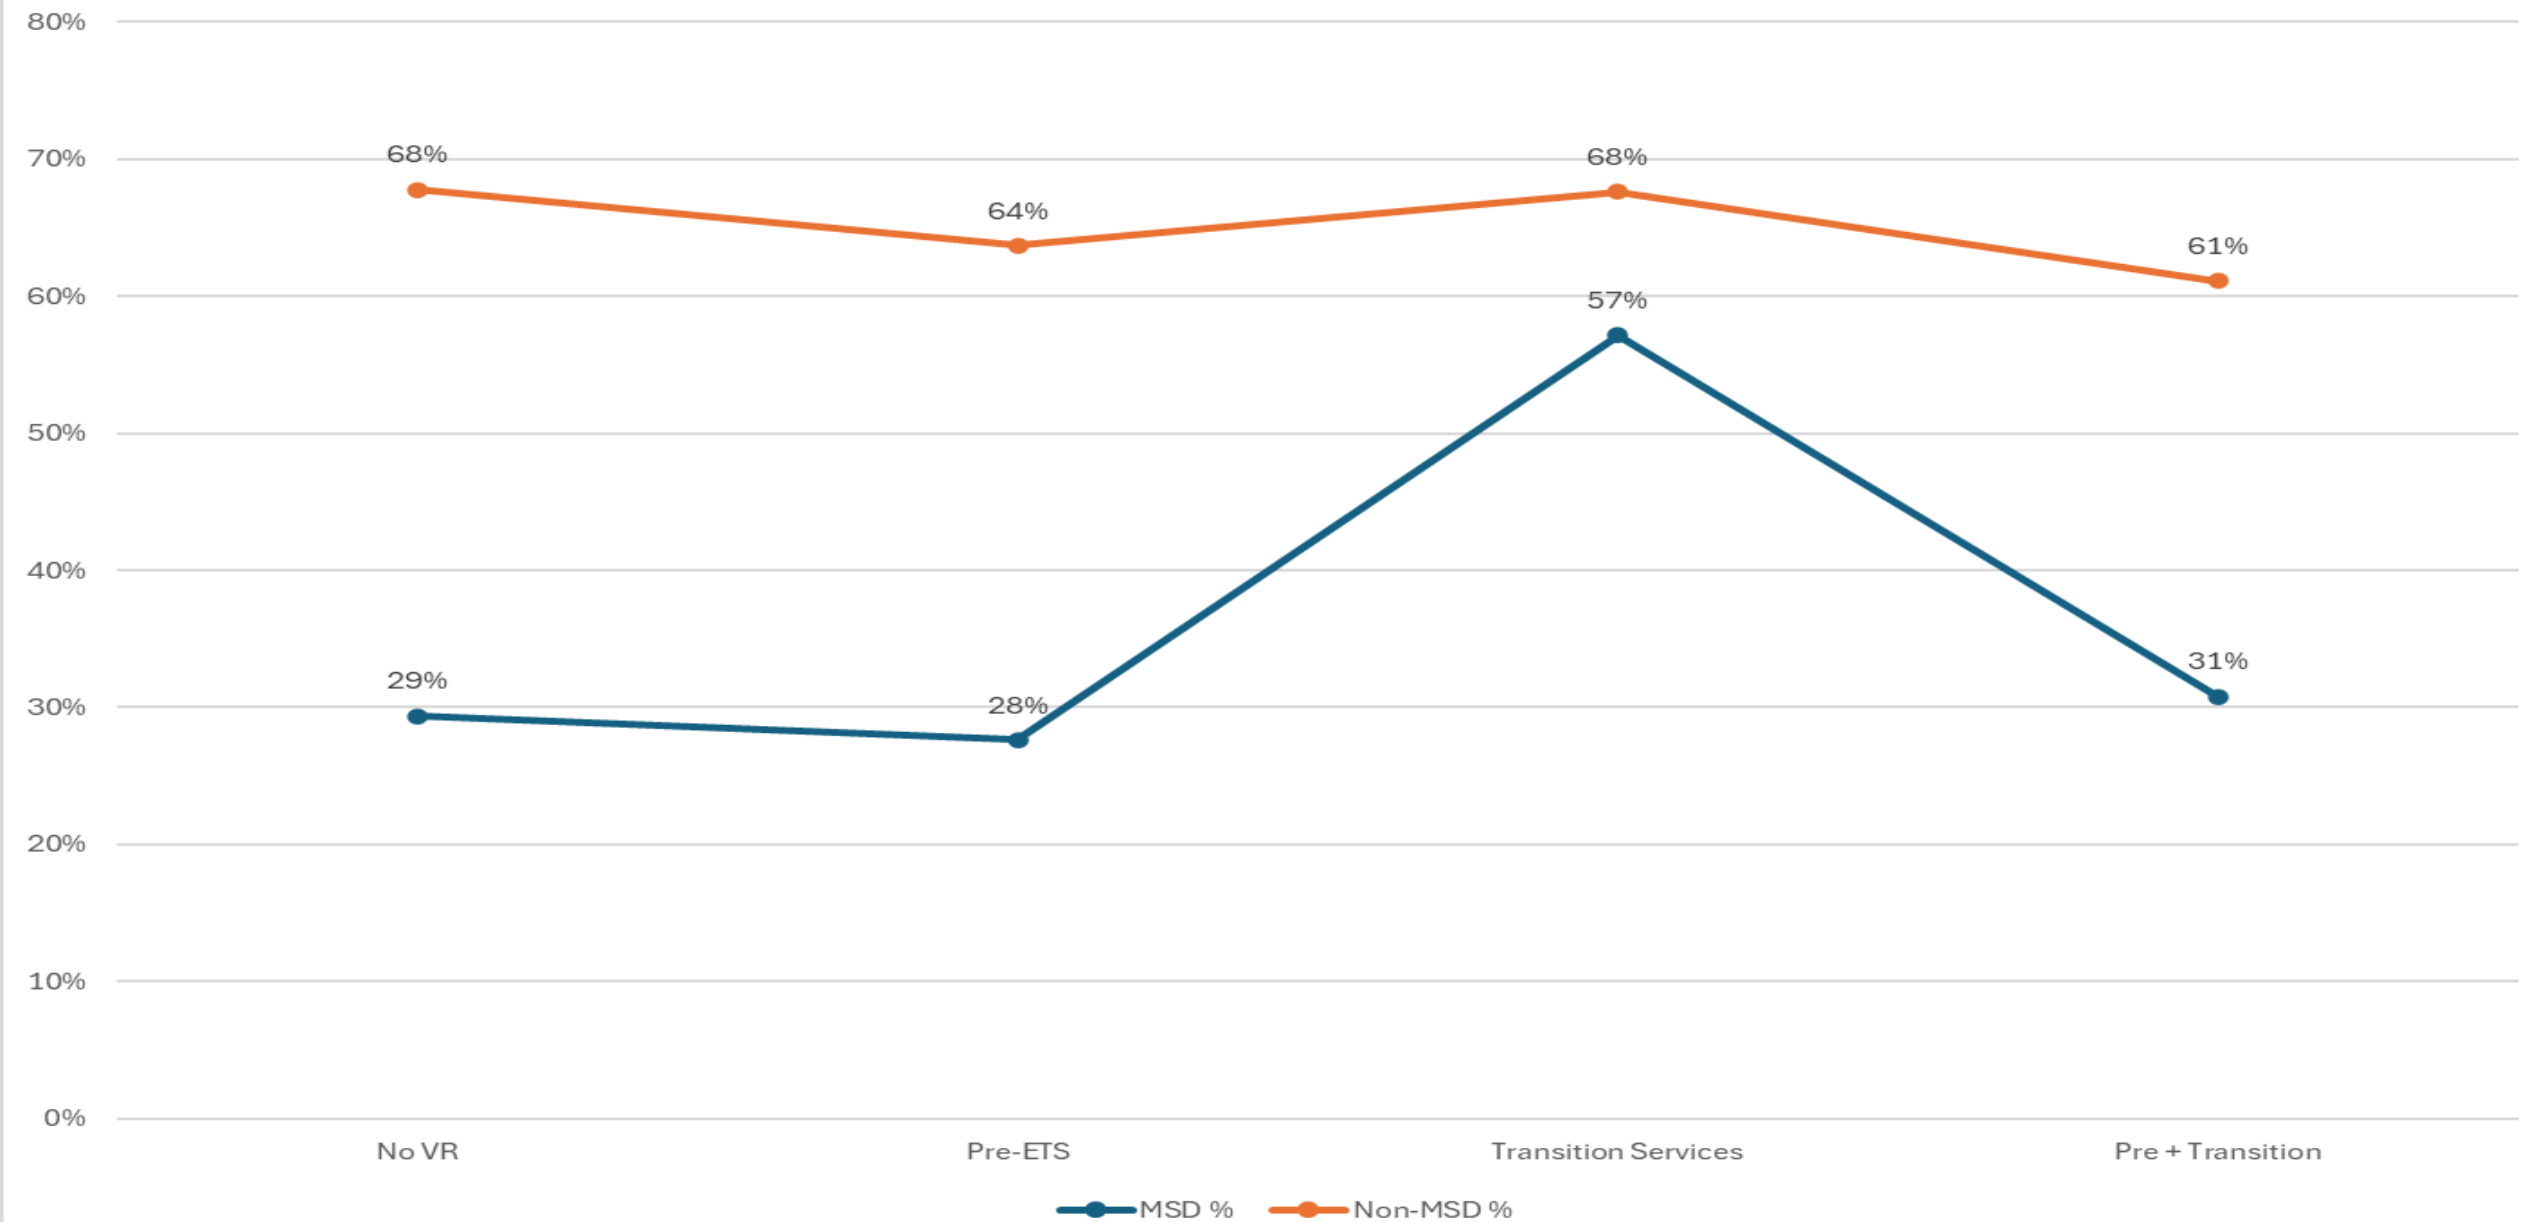

- Does this vary for MSD students

What We Did

- Gave SSID numbers of all eligible YOYO Students to KYSTATS

- KYSTATS gave us OVR data for each student
  - Received Pre-ETS
  - Received Transition Services

- This told us
  - Who got nothing
  - Who got everything

- Merged with YOYO data from 2023 & 2024

Raw Numbers of Students in each OVR Category
2023 & 2024

Category	MSD	Non-MSD
No VR	735	3563
Pre-ETS	239	862
Transition Services	21	102
Pre + Transition	104	314

Percent Competitively Employed or in PSE
2023 & 2024 YOYO Data

So now what?

- Who are we serving and not serving

- What is the value of Pre-ETS alone?

- Are there differences for MSD students?

- What does the future hold?

I don't know

That's why Jonathan is next...
